## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 13, 2007 has been entered.
2. In the remarks filed on November 13, 2007, Applicant cancelled claims 11-16 and 22-29, added claim 30, and submitted arguments for allowability of pending claims 1-10 and 30.
3. In the amendment filed on November 13, 2007, Applicant presents new claim 30 which is drawn to an apparatus for processing data recorded on an information storage medium. Examiner previously required a restriction between the reproducing apparatus and the optical disc. However, the processing apparatus of claim 30 is not patentably distinct from the optical disc of claim 1 and therefore the restriction is withdrawn and all claims are examined on the merits.

### ***Allowable Subject Matter***

4. Claims 1-10 and 30 (to be renumbered 1-11) are allowed.
5. The following is an examiner's statement of reasons for allowance:

**Claims 1-10** are allowable for the reasons indicated in the previous Office Action.

**Regarding claim 30**, none of the references of record, alone or in combination, suggest or fairly teach the limitations of independent claim 30 in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to disclose an apparatus for processing data recorded in an information storage medium comprising a burst cutting area between a clamping area and a lead-in area, the apparatus comprising: an optical pickup arranged to emit a light to the information storage medium to transfer data with respect to the information storage medium; and a controller arranged to control the optical pickup to reproduce information regarding the information storage medium from the burst cutting area, **wherein the information regarding the information storage medium comprises tracking polarity information.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
